## Teflon® PTFE

For comparative information about plastics, see page 3692.

### Tubes Made from Teflon® PTFE

- Color: White
- Temperature Range: -350° to 500° F
- Tensile Strength: 4,500 psi (Poor)
- Impact Strength: 2.00 ft.-lbs./in. (Good)
- For Use Outdoors: Yes
- Specifications Met: ASTM D1710, Made of FDA Listed Material, UL 94V0

Protect wires, cords, and anything that can fit inside these tubes from solvents. They're also used to fabricate parts that slide and roll, such as bearings and gears. These tubes are made from virgin Teflon® PTFE, which surpasses most plastics when it comes to chemical resistance and performance in extreme temperatures. It is also an excellent electrical insulator. OD is oversized and ID is undersized for finishing to the sizes listed.

OD	Tolerance Rating	ID	Wall Thick.	Lengths, ft.	Per Ft.

### Hexagonal Bars Made from Teflon® PTFE

- Color: White
- Temperature Range: -350° to 500° F
- Tensile Strength: 4,500 psi (Poor)
- Impact Strength: 2.00 ft.-lbs./in. (Good)
- For Use Outdoors: Yes
- Specifications Met: ASTM 4894, ASTM D1710, Made of FDA Listed Material, UL 94V0

Use these hexagon bars to fabricate parts that slide. They're made from virgin most plastics when it comes to chemical resistance and performance in ex solvents and is an excellent electrical insulator.
